FOR IMMEDIATE PUBLICATION**

Animas Geographic Technology, Inc. Joins ESRI's Business Partner Program

Durango, Colorado – September 2005 – Animas Geographic Technology, Inc. (AGTI), a GIS consulting company specializing in planning, designing, developing, and implementing spatially enabled information systems, announces that it has joined ESRI's Business Partner Program. AGTI will participate in the Business Partner Program as a consultant and a value-added reseller of ArcPad, ArcView, and ArcGIS Extensions.

Animas Geographic Technology, Inc. currently provides geographic information system services to a wide range of public and private organizations. AGTI chose to participate in both the ESRI Business Partner reseller and consultant programs to offer customers with more complete service, software, and hardware solutions.

The ESRI Business Partner Program is a network of more than 1,600 domestic and international developers, consultants, data publishers, and resellers who, utilizing ESRI technology, provide solutions to meet the geographic information system (GIS) needs of every industry. Working together, ESRI and its business partners solve business problems with new software applications, data, and value-added services.

"We are excited to become part of the ESRI Business Partner Program," said Aaron Robinson, President of AGTI, "Partnering with ESRI will enhance our ability to provide our clients with end to end service and software solutions."

About Animas Geographic Technology, Inc.

Animas Geographic Technology Inc. (AGTI) is a Colorado based provider of geographic information system services. AGTI serves a variety of clients ranging from small private sector companies to large federal government agencies. AGTI's goal is to provide our customers with a high-quality product and outstanding service through a strong work ethic. AGTI is committed to understanding the technical and organizational needs of clients to help them effectively leverage technology solutions.

About ESRI

Founded in 1969, ESRI (www.esri.com) is the world leader in the GIS software industry. ESRI offers innovative solutions that help users create, manage, analyze, and display information to make timely decisions and solve problems they encounter every day. ESRI's comprehensive product line ranges from desktop GIS to GIS for the enterprise.

ESRI, ArcView, ArcGIS, ArcPad, and www.esri.com are trademarks, registered trademarks, or service marks of ESRI in the United States, the European Community, or certain other jurisdictions. Other companies and products mentioned herein are trademarks or registered trademarks of their respective trademark owners.
