

## PRESS RELEASE FOR IMMEDIATE PUBLICATION

### Animas Geographic Technology, Inc. Hires new Project Manager

**Durango, Colorado – October 2006** – Animas Geographic Technology, Inc. (AGTI) , a GIS consulting company specializing in planning, designing, developing, and implementing spatially enabled information systems, announces growth of its consulting staff with the appointment of a new Project Manager, Denise Pruett. The new staff appointment follows AGTI's success in several new contract awards.

Denise Pruett

Project Manager Denise Pruett will be focused on a key software development and implementation project for AGTI. Denise will be responsible for overseeing project timelines, understanding project deliverables, client communication and budget tracking. Denise will also play a business development role and participate in marketing and sales activities for the company.

Denise has more than 15 years of Management and Sales experience in Customer Service and Support. Prior to joining AGTI Denise served as a project manager for Brigade Corporation and a Senior Consultant for eGain Communications.

"Denise is a great addition to our project management team." said Aaron Robinson, President of AGTI. "She brings many years of technical project management experience with her and will contribute leadership and enthusiasm to our focus on providing high-quality technical services to our customers."
