Animas Geographic Technology, Inc. Hires new Developer

Durango, Colorado – January 2007 – Animas Geographic Technology, Inc. (AGTI) , a GIS consulting company specializing in planning, designing, developing, and implementing spatially enabled information systems, announces growth of its consulting staff with the appointment of a new Sr. GIS Application Developer, Mark Jones. The new staff appointment follows AGTI's success in several new contract awards.

Mark Jones

Sr. GIS Application Developer, Mark Jones will be focused on software development processes and output, along with contributing to business and technical decisions regarding software projects.

Prior to working with AGTI, Mark was a Software Systems Engineer with The Boeing Company, where his intimate knowledge of the software development process in combination with his innate communication skills enabled him to lead nationwide teams of engineers.

Mark holds a Bachelor's degree in Computer Science from Point Loma Nazarene University in San Diego, CA.

"We are excited to have found Mark with such a passion for GIS application development." said Aaron Robinson, President of AGTI, "Mark has already made a very positive impact on our active projects and he will play a key role in our continued success in providing our clients with custom GIS solutions."
