## **Animas Geographic Technology, Inc. Signs OEM Partnership Agreement with ESRI's Business Partner Program**

**Durango, Colorado – March 2007** – Animas Geographic Technology, Inc. (AGTI), a GIS consulting company specializing in planning, designing, developing, and implementing spatially enabled information systems, announces that it has signed an OEM Partnership Agreement with ESRI's Business Partner Program. AGTI also participates in the Business Partner Program as a consultant and a value-added reseller of ArcPad, ArcView, and ArcGIS Extensions.

Animas Geographic Technology, Inc. provides geographic information system services to a wide range of public and private organizations. AGTI chose to participate in the ESRI Business Partner Program as an OEM reseller to offer customers commercial off-the-shelf software solutions that are embedded with ESRI technology.

The ESRI Business Partner Program is a network of more than 1,600 domestic and international developers, consultants, data publishers, and resellers who, utilizing ESRI technology, provide solutions to meet the geographic information system (GIS) needs of every industry. Working together, ESRI and its business partners solve business problems with new software applications, data, and value-added services.

"We are excited to add the OEM relationship to our existing partnerships with ESRI," said Aaron Robinson, President of AGTI, "As an OEM reseller we will be able to better meet customer needs by embedding ESRI technology within our software solutions."

### **About Animas Geographic Technology, Inc.**

Animas Geographic Technology Inc. (AGTI) is a Colorado based provider of geographic information system services. AGTI serves a variety of clients ranging from small private sector companies to large federal government agencies. AGTI's goal is to provide our customers with a high-quality product and outstanding service through a strong work ethic. AGTI is committed to understanding the technical and organizational needs of clients to help them effectively leverage technology solutions.

### **About ESRI**

Founded in 1969, ESRI ([www.esri.com](http://www.esri.com)) is the world leader in the GIS software industry. ESRI offers innovative solutions that help users create, manage, analyze, and display information to make timely decisions and solve problems they encounter every day. ESRI's comprehensive product line ranges from desktop GIS to GIS for the enterprise.

ESRI, ArcView, ArcGIS, ArcPad, and [www.esri.com](http://www.esri.com) are trademarks, registered trademarks, or service marks of ESRI in the United States, the European Community, or certain other jurisdictions. Other companies and products mentioned herein are trademarks or registered trademarks of their respective trademark owners.
