

## **Animas Geographic Technology, Inc. Hires new GIS Technician**

**Durango, Colorado – October 2008** – Animas Geographic Technology, Inc. (AGTI) , a GIS consulting company specializing in planning, designing, developing, and implementing spatially enabled information systems, announces growth of its consulting staff with the appointment of a new GIS Technician, Ali White. The new staff appointment follows AGTI's success in several new contract awards.

Ali White

New staff member Ali White, GIS Technician will be focused on providing GIS and GPS support for staff, partners, and clients. Her responsibilities will include GPS data collection, post processing and developing hard copy and digital maps.

Ali brings GIS experience to the team through her previous work as a physical scientist on a USGS global change study, doing GPS data collection and processing, cartography, field measurements, data analysis, and project presentation designs. Other project work has included GIS analysis, GIS data editing, and database entry.

Miss White graduated with a BA from the Department of Geography at Middlebury College in 2004. She is currently working towards a Graduate Certificate in GIS through Northeastern University.

"We are thrilled to have Ali on our team. Her experience and enthusiasm for GIS make her a great addition." said Aaron Robinson, President of AGTI.
