Animas Geographic Technology, Inc. Hires new GIS Technician

Durango, Colorado – November 2008 – Animas Geographic Technology, Inc. (AGTI) , a GIS consulting company specializing in planning, designing, developing, and implementing spatially enabled information systems, announces growth of its consulting staff with the appointment of a new GIS Technician, Jesse Lanci. The new staff appointment follows AGTI's success in several new contract awards.

Jesse Lanci

New staff member Jesse Lanci, GIS Technician will be focused on providing GIS and GPS support for staff, partners, and clients. His responsibilities will include GPS data collection, post processing and developing hard copy and digital maps.

Jesse brings GIS experience to the team through his previous work for the Dolores River Dialogue and involved in a long term impact study on the Dolores River for them. Jesse has experience in GPS data collection, database entry, GIS analysis, GIS editing and cartography.

Jesse received his BS in Environmental Biology and Certificated of GIS from the Fort Lewis College in Durango, Colorado. While at Fort Lewis College, he analyzed the impacts the construction of McPhee reservoir

"We are excited to have Jesse as part of our GIS Team." said Aaron Robinson, President of AGTI.
